

FEATURES

- Deep bucket well for allowing excavator booms to ride low
- Rear deck expands to 10 feet wide using 8" air cylinders
- Lightweight design for impressive payload capacity
- Walking beam suspension uses greaseless bushings
- Removable gooseneck for loading at the front
- Tail channel design protects lights from damage
- Beaver tail at rear, hook-on ramps available

TRUNNION STYLE WHEEL AREA

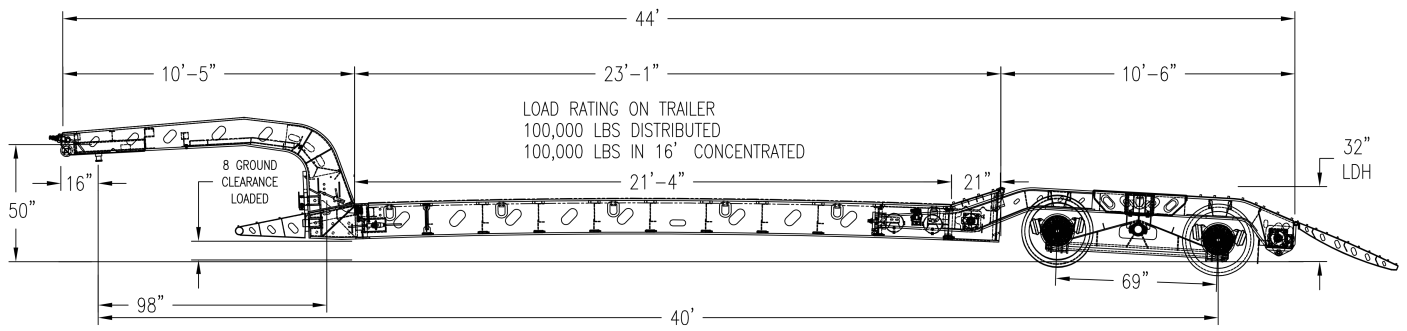

The rear deck of the XL MGX expands from 102 inches wide to 120 inches wide using two 8-inch air cylinders. This is especially beneficial for drivers in the Western US, yet it also offers flexibility across the country. Eliminate an overwidth return trip with the MGX.

SPECS YOU NEED, FEATURES YOU WANT

Drive over rough terrain with confidence thanks to the walking beam suspension. 2 Position Guide System on the gooseneck, makes for easy off road reconnecting of gooseneck to the main deck. With aluminum diamond plate connection guard.

DESIGNED FOR YOU. BUILT TO LAST.
