### A) Cant Hooks

These cant hooks are heavy-duty and fitted with quality hardwood handle, 2-3/8" in diameter which gives them maximum strength. Moves logs, big cants or beams and great for rolling logs when cutting firewood.

Item #	Description	Sale
15784	30" Wooden Handle Cant Hook (Regular \$115.99)	<b>\$99.99</b>
15786	42" Wooden Handle Cant Hook (Regular \$125.99)	<b>\$115.99</b>
15785	54" Wooden Handle Cant Hook (Regular \$149.99)	<b>\$139.99</b>

### B) Peaveys

The peavey is similar to a cant hook except it has a pointed spike at the working end. The spike allows you to move larger diameter logs than a similar sized cant hook. Spike can also be used to pry and push logs around.

Item #	Description	Sale
15794	42" Wooden Handle Peavey (Regular \$149.99)	<b>\$139.99</b>
15795	54" Wooden Handle Peavey (Regular \$154.99)	<b>\$144.99</b>
15798	60" Wooden Handle Peavey (Regular \$169.99)	<b>\$159.99</b>

### C) Timberjack

A great tool for lineman and chainsaw operators, it will lift one end of a log or pole off the ground and hold it securely. Linemen will save time by using it to hold the pole at a convenient height while it is being fitted with hardware. Chainsaw operators will find it safer to use the timberjack when sawing logs. It will raise the log off the ground to help prevent chain damage, pinching, and kickback.

Item #	Description	Sale
15810	42" Wooden Handle Timberjack (Regular \$149.99)	<b>\$139.99</b>

### D) Hookeroon

This hookeroon (also known as pickeroons in some areas) is great for moving small logs and firewood. This hookeroon has a hump style spring steel head.

Item #	Description	Sale
15825	36" Wooden Handle Hookeroon (Regular \$89.99)	<b>\$79.99</b>

## HY-C Deluxe Tubular Log Racks

**Sale From**  
**\$89<sup>99</sup>**

**Regular From**  
**\$99<sup>99</sup>**

These easy-to-assemble tubular steel firewood racks feature a black powder coat finish that's tough and corrosion resistant. They're guaranteed to store your valuable and hard-earned firewood neatly for many years. HY-C builds these in the USA with quality as their top priority. All assembly hardware is included.

Item #	Description
HYC SLRS	Small Log Rack (26" x 12" x 33") 13 lbs (Regular \$99.99)
HYC SLRM	Medium Log Rack (45" x 13" x 45") 18 lbs (Regular \$114.99)
HYC SLRXL	Large Log Rack (96" x 13" x 45") 23 lbs (Regular \$189.99)
HYC SLRK	Log Rack Brackets (See Online) (Regular \$37.99)

## Fatwood Firestarter

**Sale**  
**\$25<sup>99</sup>** **Regular**  
**\$30<sup>99</sup>**

Fatwood is a 100% all natural and non-toxic alternative to the other firestarter products on the market. The firestarting capabilities of this fatwood are due to the natural concentration of resin in the stump of the tree. 10 lb Kraft Box.

Item # FW 19910

**100% Natural Wood**

## EZ Fire Firestarter

**Sale**  
**\$59<sup>99</sup>** **Regular**  
**\$69<sup>99</sup>**

Item # 74401

EZ Fire Firestarters save time and mess around the home, cabin, or campsite. Simply stack your fairly dry firewood, place a packet on top and light a couple of corners. It is environmentally friendly, as it consists of all naturally occurring, sustainable ingredients. Box of 100 Packets.

## WoodOX Firewood Sling

**Sale**  
**\$79<sup>99</sup>**

**Regular**  
**\$89<sup>99</sup>**

The WoodOX Sling's ergonomic design positions firewood securely under the user's arm on either side, instead of dangling by their knees. This unique messenger bag design evenly distributes the weight of the firewood across the upper body, making it much easier to load and unload firewood without having to bend over.

Item # LOX 8141

## Splitting Mauls Perfect for Firewood

**Sale From**  
**\$35<sup>99</sup>**

**Regular From**  
**\$44<sup>99</sup>**

**FISKARS®**

**A) Council Tool 8 lb (36") Splitting Maul** Comes with a straight 36" American Hickory handle with sledge style eye, which gives you substantial swinging power. Designed to split and "bust" apart wood, with its heavy weight and wide protruding head. The head is drop forged and tempered to RC 45-50 for toughness. Has a round striking face on the back, intended to be used like a sledge hammer, for driving steel splitting wedges on difficult wood.

**B) Fiskars Pro IsoCore 8 lb (36") Splitting Maul** This maul is great for hardcore wood splitting. It features the patented IsoCore Shock Control System to reduce shock and vibration by 2X. It allows you to take on intense wood splitting jobs while helping to reduce muscle fatigue and joint pain. Its forged premium steel head features a splitting face for forcing wood apart and a driving face.

Item #	Description	Sale
A) PR80M	Council Tool 8 lb Maul (Regular \$44.99)	<b>\$35.99</b>
B) 7511101001	Fiskars Pro IsoCore 8 lb (36") Maul (Regular \$85.99)	<b>\$75.99</b>

## The Chainsaw Buddy

**Sale**  
**\$54<sup>99</sup>** **Regular**  
**\$59<sup>99</sup>**

Item # CB41

The Chainsaw Buddy is designed to cut limbs without grounding the chain, while also holding the wood in place. Avoids the dangerous practice of bracing wood against your leg and increases efficiency while cutting.

## The Mingo Firewood Marker

**Sale**  
**\$34<sup>99</sup>**

**Regular**  
**\$39<sup>99</sup>**

Item # 265

The Mingo Marker is a paint marker and measuring tape all in one. Allowing you to quickly and accurately measure and mark logs for firewood cutting.

**ATTENTION! READ THIS — WARNING:** This product can expose you to chemicals including Nickel and Carbon Monoxide, which are known to the State of California to cause cancer and birth defects or other reproductive harm. # Axes

## WOODLANDPRO®

### WoodlandPRO Fallers Axes

Top quality fallers axes from WoodlandPRO. These axes are specifically designed by Bailey's for logging and timberfalling duties. The Dayton style head is perfect for cleaning out undercuts and the square back head will drive wedges with power. We outfit these axes with a straight 28" American Hickory handle, which is short enough to carry easily in the woods, but long enough to give you substantial swinging power. The axe head is drop forged and tempered to RC 48-55 which exceeds ANSI standards, and painted with red enamel and clear lacquer to deter rust. Hickory handle is dried below 10% moisture content during installation to minimize shrinkage and loosening.

Item #	Description	Sale

## WATERAX Vinyl Collapsible Backpack Fire Pump (5 Gallon)

**Sale**  
**\$229<sup>99</sup>** Regular  
**\$259<sup>99</sup>**

This backpack pump is a collapsible 5 gallon bag, constructed of heavy duty yet lightweight polyester fabric which is encased in vinyl for superior puncture and abrasion protection. Its seams are reinforced in all the right places to eliminate any possibility of leaks. Includes a brass hand pump which features a sturdy nylon rear pistol grip and forward rubber grip, a combination nozzle tip allowing for quick switch from stream to spray without tools, and a positive shutoff and locking feature which prevents leaking at any angle. Shoulder straps are designed for enhanced comfort and safety. Cushy padded straps provide superior load support and are made with breathable materials for cool and dry operations. Includes multiple adjustment straps for a custom fit, a chest strap to distribute pressure, heavy duty fastening clips, and Scotchlite® reflective strips for increased visibility.

Item # 250291

# Husqvarna Professional Chainsaws

## 592XP 93cc Professional Chainsaw

This new 93cc chainsaw was developed for professional forestry and tree care workers who demand the best in heavy duty performance, reliable operation, and well-balanced maneuverability. It introduces the X-Tough Light RSN Chainsaw Guide Bar with its lightweight, professional grade features and improved performance for tough commercial conditions. Features AutoTune 3.0 and reliably starts and runs optimally in even the harshest working conditions. The powerful X-Torq engine combined with X-Cut chain delivers the best in class cutting capacity and power to weight ratio. Heavy-duty, state of the art air filtration keeps debris and filter clogging particles to a minimum by removing 98% of incoming dust, grit, and dirt. Available in both half wrap and full wrap versions.

Item #	Description
HVFP 592XPW	Full Wrap Handle
HVFP 592XP	Half Wrap Handle

## 572XP 71cc Professional Chainsaw

The 572XP is the replacement chainsaw for the legendary 372XP. At just 14.5 lbs, it has a better power-to-weight ratio and 12% higher cutting capacity than the 372XP X-Torq. This saw is designed to operate in the world's most rugged environments. Excellent cooling and heavy-duty filtration maximize reliability, and a smart design accommodates longer guide bars. Thanks to AutoTune, Air Injection, and low vibration technology, it allows you to work all day. New engine design offers a wide usable RPM range for peak performance even under heavy loads. Available in both half wrap and full wrap versions.

Item #	Description
HVFP 572XPW	Full Wrap Handle
HVFP 572XP	Half Wrap Handle

## 585 90cc Professional Chainsaw

Experience the robustness of the new 90cc petrol chainsaw range. The Husqvarna 585 is developed for forestry and tree care workers looking for a robust and durable chainsaw that's easy to maneuver and maintain even in tough conditions. This chainsaw combines proven technology with modern design and performance. The powerful X-Torq engine combined with the X-Cut C85/C83 chains delivers excellent cutting capacity. Equipped with X-Tough™ bar. Available in both half wrap and full wrap versions.

Item #	Description
HVFP 585W	Full Wrap Handle
HVFP 585	Half Wrap Handle

## 395XP 94cc Professional Logger Chainsaw

A very powerful saw from Husqvarna designed for the most demanding conditions a timber faller may face. The 395XP is engineered with the professional logger in mind. The 395XP is unique due to its rugged handle design, more aggressive clutch, and wider clutch cover for better dispersal of wood chips. This saw also has the power and balance to take longer bar lengths. Available in both half wrap and full wrap versions.

Item #	Description
HVFP 395XPW	Full Wrap Handle
HVFP 395XP	Half Wrap Handle

## 372XP 71cc Professional Chainsaw

Our most popular professional saw. This 71cc chainsaw comes with an X-Torq engine. The engine provides high torque over a very wide RPM range. Combine that with low fuel consumption and low exhaust emission levels, and you've got the machine to run with you all day. Loaded with features including side mounted chain adjuster, air Injection air filtration system and Smart Start compression release for easy starting. 372XP also has a transparent fuel tank and LowVib anti-vibration system. Both half wrap and full wrap versions available.

# Chainsaw Maintenance

## T&S CS118 Standard & Harvester Chain Grinders

These T&S chain grinders are designed to professionally sharpen both 3/8" and .404" pitch chainsaw chain and .404" pitch harvester chain. The T&S CS118 chain grinder uses a large 8" diameter wheel, which allows for cooler grinding as compared to standard chain grinders with 5-3/4" wheels. The results are less burned cutters and a very fine finish. The body is made from cast aluminum, while most components such as the chain vise are made from machined steel. The chain base is easily adjustable for wheel wear, and can be quickly swapped out for other pitches of chain. Comes with a 1/2hp variable speed DC motor, which allows you to adjust the wheel speed as the wheel wears. Requires 120V AC electricity. Comes complete with grinding light, interchangeable base, corundum dressing brick, a preshaped 3/16" grinding wheel, and steel stand, so you are ready to sharpen both 3/8" and .404" pitch chains.

Item #  
TSG CS118 (3/4" Harvester Chain)  
TSG CS118 38 (3/8", .404" Chain)

Includes 1/8", 3/16", and 1/4" wheels, dressing brick, wrenches, and wheel template.

## MAXX 120 Volt Bench Mounted Chain Grinder

Sale  
**\$369<sup>99</sup>** Regular  
**\$389<sup>99</sup>**

The Italian-made MAXX grinder allows bi-directional grinding because its head tilts left and right (90° to 50°) and the table is symmetrical. Unlike other grinders, this unique design allows you to get the same results on both left and right hand cutters. The automatic chain clamping mechanism is activated when the head is lowered. It will clamp anywhere from .043 gauge chain to .080 without the 3/4 adapter.

Item # 13151

Includes 1/8", 3/16" and 1/4" wheels, a dressing brick and a 3/4" pitch adapter.

**MAXX**  
THE PRO-GRINDER

**BIG SAVINGS!**

## WoodlandPRO 30RC

30RC is the most popular chain sold here at Bailey's. Razor sharp chisel cutters blaze through hardwoods and softwoods. This chain has no anti-kickback features, so it is not recommended for casual users. 30RC is .375 pitch – .050 (1.3mm) gauge, with a chisel cutter. Sharpens with a 7/32" file. Available in many premade loop sizes. Call or see our website for additional loops and reels.

## WoodlandPRO Saw Chain

WoodlandPRO saw chain is arguably the best value in chain available today. Almost all WoodlandPRO chain is manufactured by the world's largest saw chain manufacturer, Blount. WoodlandPRO chain is loaded with professional features, including industrial chrome cutter plating, nickel alloy steel chassis, hypodermic lubrication of the rivets, and hone sharpened cutters. Our chain is razor sharp right out of the box, and doesn't need to be "touched up" before using. Shop around and compare prices and features; you'll be hard pressed to find a professional quality chain for this value.

## WoodlandPRO 20NK

20NK is designed for today's small, professional chainsaws that use narrow kerf bars. This chain has no anti-kickback features, so it is not recommended for casual users. 20NK is .325 pitch, .050 (1.3mm) gauge, with a semi-chisel cutter. Available in many premade loop sizes. Call or see our website for additional loops and reels.

**ATTENTION! READ THIS — WARNING:** WoodlandPRO saw chain may be capable of kickback that could result in serious injury to the chainsaw operator or bystanders. DO NOT USE THIS CHAIN UNLESS YOU HAVE EXPERIENCE AND SPECIALIZED TRAINING FOR DEALING WITH KICKBACK. Saw chain with reduced kickback potential is available.

# Arborist Helmets

## Petzl Strato Vent Lightweight Helmets

The Strato Vent helmet was completely redesigned in 2019, and now features an upgraded six-point textile suspension, CenterFit and Flip & Fit systems, which guarantee that the helmet fits securely on the head. The adjustable-strength chinstrap makes it ideal for work both at height and on the ground. Like the name implies, it has ventilation holes with sliding shutters to allow airflow through the helmet. This latest version of the Petzl Strato Vent requires the latest version of Vizir eye shields, as they are not interchangeable with older models. Certified ANSI Z89.1 Type 1.

Only  
**\$129<sup>99</sup>**

Item # PZL A020BA

## Petzl Strato (Class E) Lightweight Helmets

The Strato Class E helmet was completely redesigned in 2019, and now features an upgraded six-point textile suspension, CenterFit and Flip & Fit systems, which guarantee that the helmet fits securely on the head. The adjustable-strength chinstrap makes it ideal for work both at height and on the ground. The unventilated Class E outer shell protects against electrical hazards, molten metal splash, as well as flames. This latest version of the Petzl Strato requires the latest version of Vizir eye shields, as they are not interchangeable with older models. Certified ANSI Z89.1 Type 1, Class E.

Item # PZL A020AA

## Petzl Vertex Vent Arborist Helmets

From Only **\$99<sup>99</sup>**

The Vertex Vent helmet was completely redesigned in 2019, and now features an upgraded six-point textile suspension, CenterFit and Flip & Fit systems, which guarantee that the helmet fits securely on the head. The adjustable-strength chinstrap makes it ideal for work both at height and on the ground. Like the name implies, the Vertex Vent has ventilation holes with sliding shutters to allow airflow through the helmet. This latest version of the Petzl Vertex Vent requires the latest version of Vizir face shields, as they are not interchangeable with older models. Certified ANSI Z89.1 Type 1, Class C.

Item # PZL A010CA

## Petzl Vertex (Class E) Helmets

From Only **\$99<sup>99</sup>**

The Vertex Class E helmet is very comfortable, thanks to its six-point textile suspension, Centerfit and Flip & Fit systems, which guarantee that the helmet fits securely on the head. The adjustable-strength chinstrap makes it ideal for both work at height and on the ground. The unventilated outer shell protects against electrical hazards, molten metal splash and flames. With its potential for integration of a Petzl headlamp, hearing protection, and multiple accessories, it is an entirely modular helmet, thus meeting the specific additional needs of professionals. Certified ANSI Z89.1 Type 1 Class E.

Item # PZL A010AA

## Protos Integral Arborist Helmet w/SENA System

Sale From  
**\$569<sup>99</sup>** Regular From  
**\$599<sup>99</sup>**

Complete helmet and communications system from Bailey's. This combo includes a Protos Integral Arborist Helmet and Sena Bluetooth Communications System. The Protos helmet integrates eye, ear, and head protection into one modular helmet system. This Type 1, Class C helmet has a patented design that not only protects from vertical impacts, but also side and rear impacts. The special cushioning construction of the interior shell effectively absorbs impacts, greatly reducing the energy transfer to the head and spine. The Sena bluetooth communications system comes installed and ready to go.

Item # SENA 405002

Select Colors Only

## Kask SuperPlasma HD Arborist Helmets

Only **\$129<sup>99</sup>**

Kask SuperPlasma HD helmets offer a wide range of features for safety and comfort. The outer shell is molded with ABS plastic for toughness and impact resistance. The inner shell is made with HD Polystyrene for comfort and shock absorption. Comes with an adjustable universal sizing suspension and an Up & Down adjustment system offering superior fit thanks to its unique double pivot design. It allows the back of the head to be cradled by the straps, which are easily tightened to the correct tension by a wheel ratchet. Keep your head cool with great ventilation from 10 air intakes protected by an aluminum anti-intrusion grille. Certified ANSI Z89.1 Type 1, Class C.

Item # KASK WHE102

## Petzl Vizir Eye Shield

The Petzl Vizir eye shield protects the eyes against projectile hazards. It is easy to install on Vertex and Strato helmets with the EasyClip attachment system, and has scratch-resistant and anti-fog coatings. It allows glasses to be worn and it pivots quickly from work position to storage position on top of the helmet. However it is recommended to wear safety glasses underneath.

# Chainsaw Protection Pants

## WoodlandPRO Chainsaw Protection Pants

**Designed by Professional Arborists**  
**Light • Comfortable • Durable**

**WOODLANDPRO®**

WoodlandPRO Arborist chainsaw protection pants were designed by tree care professionals to be one of the lightest, most comfortable, and durable chainsaw protection pants available. WoodlandPRO Arborists chainsaw protection pants use ProlarLite protective padding, which is super thin and lightweight, but still offers full UL listed protection for jamming saw chain. The front high wear areas of these pants are made with a reinforced Nylon/Kevlar weave that makes them incredibly durable. The back of the pants are made from a lightweight and breathable Nylon/Spandex material that helps ventilate during those hot summer days. Elastic waist stretches up to 8", and deep pockets with flaps and zipper or Velcro closures keep your tools in and the wood chips out. Meets ASTM Std.F-1897-2014 and CAN/BNQ 1923-450-M91. UL Certified. Please see our website for complete sizing information.

Item #	Description
BWP AP	Black/Brown (Med - XL)

**\$219<sup>99</sup>**

## Pfanner Gladiator® Extreme Chainsaw Protection Pants

**PFANNER®**

Pfanner Gladiator Extreme chainsaw pants are designed to take on the toughest work environments. Gladiator Extreme pants have a reinforced polyamide outer fabric that is waterproof, oil resistant and nearly indestructible. These pants are perfect for those working in dense woods, where brush and thorns would otherwise destroy traditional work clothing. Gladiator Extreme chainsaw pants have high-tech Dyneema chainsaw protection (Class 1). StretchAir technology makes these pants very comfortable to wear. KlimaAir fabric keeps both extreme heat and cold in check. Gladiator pants have zippered vents on the back of the legs for additional cooling.

Item # PFA 102192 (Med - 2XL)

Only  
**\$469<sup>99</sup>**

## Clogger Zero Elevated Chainsaw Protection Pants

**CLOGGER®**

The Clogger Zero Elevated arborist chainsaw protection pants are the proven next level chainsaw pant design. You're able to stretch, climb and jump freely with confidence. Cooling is taken care of with two high efficiency vents, open leg design for air flow, super breathable fabric and Nilit Breeze fibers to wick heat from the body. Zeros exceed US standards for coverage by 15% and chainsaw threshold speed by 25%. The outer is amazingly durable with high tenacity nylon rip stop and all way stretch. Super tough Dyneema fabric on the right calf increases durability in a key wear zone where the hanging chainsaw causes premature wear. Slim "movement-ready" cut with plenty of stretch. Extra leg length is to allow for knee flex, especially when wearing climbing spurs. UL Certified to ASTM F1897-14 standards. Meets OSHA regulation 1910-266.

Item # CLG ELVP BR (SM - XL)

Only  
**\$429<sup>99</sup>**

## SIP Canopy W-Air Chainsaw Protection Pants Hi-Vis

SIP Canopy W-Air pants are specifically designed for tree care professionals. Canopy W-Air chainsaw protection pants are lightweight, very maneuverable and well ventilated for those hot summer days. Canopy W-Air chainsaw protection pants have high-tech Dyneema chainsaw protection (Class 1). Hi-Vis elastic Texxion upper pant comes with a water and dirt repellant Teflon coating. Reinforced Pezeflex Aqua knee guards keep these pants from tearing on sharp bark. Canopy pants have integrated gators with lace hooks to keep sawdust out of your boots. European sizes tend to run small, so you will want to order one size larger than normal.

Item # SIP 1SBC (Med - 2XL)

Only  
**\$329<sup>99</sup>**

## Clogger Ascend Gen2 Midweight Chainsaw Protection Pants

**CLOGGER®**

The all new Ascend Gen2 chainsaw pants builds on a Clogger classic with a new streamlined, lighter design and ultra durable construction. This true seasonal pant for the cooler months offers ultra durable construction, water-resistant coverage and a high-back waist design. Durable comfort with high abrasion resistant, stretch upper outer fabric giving ease of movement as well as long-lasting wear. Extremely breathable polyester mesh lining. Adjustable cooling using zippered rear vents to help stay cool on warmer days. Slim fit with plenty of stretch for easy movement. Extra leg length to allow for knee flex. UL Certified to ASTM F1897-20 and meets OSHA regulation 1910-266.

Item # CLG ASD G2P (SM - XL)

Only  
**\$419<sup>99</sup>**

# Climbing Rope

## ARBORMAX Flame & Gator (11.7mm) Climbing Rope

ARBORMAX Flame and Gator 24-Strand climbing ropes are the most popular climbing lines sold here at Bailey's. We offer these 11.7mm climbing lines in two highly visible colors, Flame (Bright Orange) and Gator (Bright Green). These climbing lines have a unique construction that stays round when pinched by mechanical climbing devices, yet they are unusually flexible and knot friendly. The double braid construction delivers one of the most static (low stretch) characteristics available in any arborist rope. These ropes are the perfect match for both SRS (Also know as SRT) and MRS climbing techniques. The 11.7mm diameter is beefier than most other 11mm lines, but still small enough to be used with most ascending and descending devices. Made in the U.S.A. exclusively for Bailey's by Yale Cordage.

**ARBORMAX**

## Teufelberger Tachyon Ash (11.5mm) Rope

Teufelberger Tachyon Ash 24-Strand Climbing Rope is professional arborist static climbing rope. Thanks to its unparalleled feel and exceptional performance, its ideal for use with the latest mechanical systems and functions perfectly in combination with standard hardware designed for use with 11 mm ropes. Consists of a polyester cover which significantly improves friction hitch performance without "bagginess". Inner core construction keeps the diameter consistent, even in the loaded state. Rope diameter of 11.5 mm is ideal for tree care operations as it ensures a better grip, thus reducing hand fatigue. Low stretch at low loads for less bounce while climbing.

## Yale XTC Spearmint

Professional arborist climbing rope from Yale. XTC Spearmint is the green/white version of the popular XTC climbing line. Spearmint color stands out extremely well. Designed specifically for the demanding needs of the professional arborist. All polyester construction with a firm 16-Strand braided cover over bundled parallel polyester core strands. The design does not allow cover milking and eliminates the need for break-in cover adjustment. Firmly flexible heat-resistant rope offers a high snag resistance and excellent mating with friction knots and prusik loops. A high twist core of torque balanced polyester keeps the construction firm and round, providing an extra measure of safety.

**Sale From  
\$109<sup>99</sup>**

## Weaver Rope Bag (Holds 150' of 1/2")

Keep rope coiled, tangle-free and protected. Made from 1200 Denier polyester and features spiral wire that is attached to the exterior of the bag to help it to stand on its own. Features webbing straps with quick-release buckles that can be used to adjust height of bag or collapse bag when not in use. A scissor snap offers easy attachment to belt when not in use. The convenient drawstring top closure provides quick and easy access.

Item # SO1952

## Clogger Ropeguard Chainsaw Protective Rope Sleeve

The Clogger Ropeguard Chainsaw Protective Rope Sleeve provides a solution for increased safety by protecting your rope from inadvertent chainsaw contact. It uses high performance chainsaw fabric with Vectran technical cut resistant fibers blended with polypropylene fibers providing field proven chainsaw protection that is flexible and easy to work with. Effectiveness proven through extensive field testing in preventing abrasion, nicks and cuts. The 38.5" (98cm) length provides extended coverage for basal anchor configurations and lanyard / friction savers on large trees. Universal fit with 2-1/2" diameter (6cm) stiffened opening allowing for easy rope insertion of common rope sizes by milking the rope, leaving a carabiner on and shaking the rope through or using a reach tool. An alternative to steel core lanyards when working near power lines. Additionally it is ultra durable, lightweight, easy to install and to use.

## Custom Splicing at Bailey's

Bailey's has a fully operational rigging and rope splicing shop in our Woodland, California warehouse. We hand splice and sew all kinds of synthetic rope from basic 3-strand to complicated double braids. Our splicing technicians are certified by the top rope manufacturers, including Samson, Teufelberger and Yale, and all Bailey's products are extensively tested by an outside third party. We also offer sewn eye splices from our industrial sewing machines. Sewn eye splices are usually more economical than hand splices, and can be done quickly if you are in a rush. We do custom work all the time, so don't be afraid to call and ask for a rope splicing technician.

*Below is a list of our custom splicing options. Most climbing and rigging ropes are available with standard tight eye splices, but you can add custom splices to many of our ropes by calling a sales representative. Below is a list of our most common rope splice request. All splices are labeled with an ANSI information tag. Bailey's will only splice new (unused) arborist ropes.*

## ARBORMAX 7/16" Gator Adjustable Friction Saver

Adjustable and retrievable friction saver anchor from ARBORMAX. The adjustable friction saver is made of 7/16" ARBORMAX Gator 24 Strand Climbing Rope with a large ring sewed onto one end and an ARBORMAX RIT 8mm ring bound loop prusik on the other. When working with a limb overhead, you can quickly adjust your height by moving the RIT ring bound loop prusik along the sling. Because of the different-sized rings, you can retrieve the entire system from the tree once back on the ground.

Item # 47360

## Barnel 21' Telescoping Pole Saw

BARNEL

Item # Z555K

Sale **\$199<sup>99</sup>** Regular **\$229<sup>99</sup>**

Made of 3-stage extruded aircraft alloy aluminum poles with a comfortable thermal plastic rubber grip. The 17" blade is hollow-ground, tri-edged, laser impulse hardened SK4 Japanese Samurai sword steel with a hard chrome finish. High quality, spring loaded locking levers are made of steel and there's also locking knobs for additional strength and safety. Extends to 21' for a maximum working reach of nearly 25'. **WARNING** Do not use near electrical hazards.

## Barnel Ultra-Reach Telescoping 6'-10' Cut-N-Hold By-Pass Pruner (5/8" Blade)

BARNEL

Item # B188Z610

Sale **\$119<sup>99</sup>** Regular **\$129<sup>99</sup>**

You'll notice Barnel's 20 years of experience the first time you use this ultra lightweight extruded aluminum telescoping Pruner. This tool is ideal for light duty, high production pruning. Using this tool, you'll be able to safely, quickly and easily prune small to medium sized branches and "suckers" without using a ladder. **WARNING** Do not use near electrical hazards.

## ARBORMAX 12' Carbon Fiber Pole Saw Package = ARBORMAX

Ultra Lightweight Carbon Fiber

Item # ARB APCF 12U2QC

Sale **\$199<sup>99</sup>** Regular **\$229<sup>99</sup>**

This ARBORMAX carbon fiber pole saw pruning package consists of a Marvin U-2 saw head complete with adapter, 13" Fanno Tri-Edge blade, and two ultra lightweight 6' ARBORMAX carbon fiber poles. The quick change adapter allows you to change the pruner head to another system in a matter of seconds. **WARNING** Do not use near electrical hazards.

# Rigging

## ARBORMAX Deluxe Speed Line Kit

**Sale**  
**\$499<sup>99</sup>**

**Regular**  
**\$579<sup>99</sup>**

Item # 27925

This ARBORMAX Deluxe Speed Line Kit has everything you need to set up an efficient speed line system. Among its many uses, this system works great for moving limbs safely, quickly and easily to a landing zone away from the base of the tree. The kit is all neatly packaged in our ARBORMAX rope bag.

### Kit Includes

- (1) 3/4" x 15' Tenex Single Eye Sling
- (1) Weaver 62' Nylon Light Duty Sling
- (1) CMI 26" Loop Runner
- (2) CMI 30" Loop Runner
- (2) CMI 36" Loop Runner
- (1) CMI 48" Loop Runner
- (1) ARBORMAX Rope Bag
- (1) Big 8 Figure 8 Descender (Stainless Steel)
- (4) Kong Slideline SS Carabiner w/Captive Bar
- (2) AMP Tacoma Auto Lock Steel HMS Carabiner
- (1) CMI 5/8" SS Pulley (2-3/8" Sheave)
- (1) CMI 5/8" SS Pulley w/Becket (2-3/8" Sheave)
- (1) CMI 5/8" SS Heavy Duty Pulley (4" Sheave)

## ARBORMAX Speed Line Kit

**Sale**  
**\$189<sup>99</sup>**

**Regular**  
**\$219<sup>99</sup>**

### Kit Includes

- (1) Petzl Tool Bag
- (4) 30" CMI Nylon Loop Runners
- (3) 36" CMI Nylon Loop Runners
- (3) 48" CMI Nylon Loop Runners
- (10) Petzl Djinn Aluminum Carabiners

Item # 27937

If you are in the market for an easy way to move cut limbs to the chipper then this ARBORMAX speed line kit is the perfect option. The kit allows you to safely move limbs away from the base of the tree.

## ARBORMAX Port-A Wrap Whoopie Sling Combo

**Sale**  
**\$179<sup>99</sup>** **Regular**  
**\$199<sup>99</sup>**

The 3/4" Whoopie Sling Combo can be adjusted from short to long in just seconds. Often used by riggers to anchor a block or friction device to a tree, the whoopie allows the rigger to mount hardware snug against the tree, minimizing slack in the rigging system. When coupled with an ARBORMAX Port-a-Wrap, you have the basis for a successful rigging setup.

Item #BRC PWS34

## Wyeth Scott 3-Ton Heavy Duty Ratchet Puller

**Sale**  
**\$429<sup>99</sup>** **Regular**  
**\$469<sup>99</sup>**

Item # 17435

This heavy-duty steel construction puller has been manufactured in the USA since 1934. It has been designed and proven to perform in a variety of demanding environments without bending, breaking, or collapsing. The updated 3-Ton Ratchet Puller features 35' of Samson's AmSteel Blue for power, strength, and safety. AmSteel Blue is an amazing synthetic rope that's stronger than cable, but so light it floats. The average strength of 5/16" AmSteel Blue is 13,700 lbs. It's resistant to permanent smashing and whiplash-free. Double line pulling capacity is 6,000 lbs dead lift and 12,000 drag/pull. Single rope capacity is 3,000 lbs dead lift and 6,000 drag/pull.

## DMM Small Impact Aluminum Arborist Rigging Block & Loopie Sling Combo

**Sale**  
**\$389<sup>99</sup>** **Regular**  
**\$419<sup>99</sup>**

Professional DMM rigging block and sling combo from Bailey's. The DMM Impact Block is one of the most durable, rope friendly rigging blocks made today. Designed for heavy use, this block is best used when coupled with an ARBORMAX Tenex adjustable loopie sling. Loopie slings allow for knot-less rigging and can be used to secure the block in the top of a tree without having to tie a knot.

Item # BRC BLS 58

## CMI Steel Arborist Block & Dead Eye Sling

**Sale**  
**\$169<sup>99</sup>** **Regular**  
**\$189<sup>99</sup>**

This block and sling combo features a CMI arborist block and Samson Tenex sling. This combo can be easily secured with a timber hitch, running bowline or cow hitch to make a false crotch. Convenient knurled knobs allow for easy rigging of the upper bushing. Block is fabricated from zinc plated steel and aluminum for lasting durability in outdoor conditions. The aluminum bushing is on a stainless steel axle.

Item # RP145 53415

## RED DAWG® Boot Sale

Red Dawg is Bailey's Exclusive Custom Line of premium work boots, manufactured by Canada West. Red Dawg boots are built for comfort, protection, and durability in a variety of demanding and hostile work environments. As a Servicing Dealer, Bailey's stands behind its product 100% and will replace any boot that fails to meet your high expectations.

### Red Dawg Lace-to-Toe Vibram Boots

Red Dawg Lace-To-Toe Vibram Boots were originally designed for loggers, but are now also a favorite with tree care workers, welders, mechanics, ranchers, and hunters. They feature the comfortable lace-to-toe design in oiled brown or black leather, Goodyear welt construction, abrasion resistant Kevlar upper stitching, double leather on vamps, double middle soles, and comfortable rolled, padded top band. The Vibram 100 lug soles give good traction, even in steep ground, and are non-marking. Boots are 12" tall with brass eyelets and studs and feature steel shanks and a leather heel base with lug.

## THE ORIGINAL WILD ASS JEAN

Bailey's World Famous Wild Ass brand clothing is sewn in the USA from high-quality American made denim fabric. We have brought back the original, bright red, WILD ASS "Henry" patch on the back pocket. These pants have the same great design, fit, and feel that our customers have relied on for over 40 years. Unbeatable value in outerwear is alive and kicking! Wild Ass clothing can only be found at Bailey's.

### Wild Ass Denim Work Jeans

Our #1 goal is to bring our customers the best USA made logger pant anywhere, for the most economical price possible. These jeans are sewn in the USA from high-quality denim fabric that is manufactured in the USA. Every pair features a bright red, WILD ASS "Henry" patch on the back pocket. These jeans also include the famous "Henry" on our bachelor buttons. They're riveted at all stress points and come standard with suspender buttons and 7 pockets. Long wearing and durable, the traditional blue jean is made from heavy duty 14.75 oz 100% cotton denim and the black denim is made from pre-washed, 13.75 oz 100% denim. Available in Single and Double knee.

### Wild Ass Denim Lined Vest

These are a full cut, relaxed fit, heavy duty work wear vest, designed to be worn in the toughest environments. Wild Ass denim vests are manufactured right here in the USA from unwashed 14.75 oz USA made cotton denim. They take a bit to break in, but wear like iron. They have easy slip in side pockets for your hands and two chest pockets. They also have inside chest pockets on the left and right with secure velcro closures. Wild Ass vests are secured with a heavy duty zipper and are lined with a blend of 70% acrylic and 30% polyester, which is perfect for those colder mornings. They were originally designed for loggers, but they are now a favorite of other hardworking folks such as welders, truck drivers, farmers and factory workers. Each one has the iconic red "Wild Ass" logo on the back left side. Available in Blue or Black.

Item # P800WA

Wild Ass "Henry" patch appears on the back of both coats and vests!

## Granberg Small Log Alaskan Chainsaw Mill

The small log mill is designed to quickly and efficiently cut logs up to 20" in diameter. It easily attaches to your chainsaw, so you can go from standard cutting to milling in a matter of minutes. The small log mill will make slabs up to 12" in thickness and up to 20" wide. Includes basic instructions and a bar wrench for assembly. We recommend a set of slabbing brackets to aid with making the first cut on a log. Designed to be used with chainsaw bars up to 20" and 50cc or greater.

Item # G777

**\$189<sup>99</sup>** Regular  
**\$216<sup>99</sup>**

## Logosol Timberjig Chainsaw Mill

Turn your chainsaw into a sawmill with the Logosol Timberjig. This simple attachment allows you to mill lumber from raw logs right where they lay. The Timberjig quickly bolts to almost all chainsaws with standard (non-full wrap) handlebars. We recommend using chainsaws no smaller than 70cc for milling, and a ripping chain is recommended if you require a smooth lumber surface. The Timberjig process is simple. You use a wooden guide to make your first cut, then make two more 90 degree cuts. You are now left with a 3 sided log that you can cut into a beam, or choose to cut into planks. It's that simple.

## Granberg MK-IV Alaskan Chainsaw Mill w/30" Rails

This highly portable milling system is designed to clamp onto your chainsaw with a bar wrench, so you can go from standard cutting to milling in a matter of minutes. It is made to go anywhere you can get a chainsaw, whether it be your back yard, or the back forty. The updated MK-IV Alaskan mills now come with CNC-machined billet end brackets. These end brackets are more accurate, easier to adjust, create less vibration than the old die cast version, and are virtually unbreakable. This mill with 30" rails maximum cut is 26". The minimum bar requirement to achieve the maximum cut is 30".

## Green Valley Products Chainsaw Bar Scabbard & Tool Pouch

**Sale From**  
**\$69<sup>99</sup>**

Regular From  
**\$75<sup>99</sup>**

Item #  
GV BAR COVER

Green Valley's chainsaw bar scabbard and tool pouch eliminates the bulk of traditional chainsaw cases without compromising protection. The added tool pouch keeps everything organized and at hand for when you need it most. The interior is oil and tear resistant. Available in 16", 18", 20", 24", 28", 32", 36", and 42".

## Granberg Edging Mill

The Granberg Edging Mill (formerly known as the Mini-Mill) makes an ideal partner to the MK-IV Alaskan Mill. This compact vertical milling attachment squares logs to make beams for timber frame construction, and cuts beams to precise lengths and widths for flooring, sliding, or trim. Great for making plunge cuts to make dimensional lumber in conjunction with your Alaskan Mill. Comes complete with 12' of metal guide rail in 2' lengths, with screws. When fastened to a 2" x 6" or 2" x 8" plank (not included) your guide is complete.

## Gridiron Chainsaw Holder

A safe and secure way to store and transport your chainsaw. The unique locking mechanism secures your chainsaw by the handlebar, keeping it upright and ready to grab. It has guides to hold the chainsaw bar & chain that can be adjusted to fit most chainsaws, and the handlebar clamping mechanism can be locked with a padlock (not included) for added security. Can be bolted down to any flat surface, or can be attached to the Gridiron post system with the aid of the Gridiron chainsaw mounting bracket (sold separately).

## 150' Up and Still 7ft in Diameter

This iconic poster, featuring the legendary Jerry Beranek taking down a giant coastal redwood in 1985 has been a classic for decades. Topping a giant redwood from 150 ft. up, where it's still 7 ft. in diameter, illustrates the strength, the imagination, and the determination of all folks involved. Falling the 10 ft. diameter butt log, right photo in series, was no simple task either. The complete story of the entire project is printed at the bottom of the poster. A great poster to doll up your shop, the rigging shack, your office or your home. Poster is 27" x 40" in dimension.

## Redwood Book Series by Gerald Beranek

Jerry Beranek has been a photo enthusiast and avid tree climber since buying his first 35mm camera in 1967. Since then, he has built an enormous archive of photographs and stories. This series of books highlights the California redwood forests from several amazing locations. Books included in this series are Humboldt Redwoods, Navarro Redwoods, Prairie Creek Redwoods and Jedediah Smith. Each book is available separately, but you might as well have the whole set. These beautiful hard cover books are a great value and an excellent gift for yourself or someone else.

## Weaver Logging Belt Kit

**Sale \$239.99**

**Regular \$259.99**

Item # 08603

This kit from Weaver includes logging belt, suspenders, axe pouch, wedge pouch, and first aid pouch. It has extremely durable, high quality latigo leather that is specially tanned to withstand harsh outdoor environments and provide years of reliable service. The adjustable sternum strap keeps your suspenders in place and features a buckle with a built in emergency whistle for easy access. The suspenders allow you to carry the weight on your shoulders instead of your waist. The adjustable waist fits sizes 30"-52". Two accessory loops on belt provide a place to hang flagging tape, loggers tape, and carabiners. Small loop on the back of the suspenders allows belt to be hung up for storage.

## The Art of Felling Timber Complete Edition Book by Roy W Hauser

This book was created to teach the timber feller who already has a working knowledge to fall trees; this book is not for the beginner chainsaw operator. The Art of Felling Timber is a study guide that presents rules of safety and alternative methods for safely felling trees including those that have been compromised by fire. The procedures and techniques that are in this guide book will assist the feller and felling partner (felling team) in making the right choices, to fell or not to fell trees, including trees that have been fire weakened. This book is a must have!

Item # AFT BFULL

**Only \$99.99**

## Log Wizard Debarker

The Log Wizard attaches easily to most chainsaws. You can make notches or debark poles for barns, fences, bridges, log home construction, and more. Features all ball-bearing construction for long life and durability. Uses standard 3-1/4" planer blades, which really helps out in tight spots, such as chainsaws with full wrap handlebars. Screnches are primarily used for adjusting the chain tension on a chainsaw, removing spark plugs, accessing air filters, starters, etc. on certain saws. A versatile little tool that does the job of 2 wrenches and a screwdriver. Not restricted to chainsaws. It also works on small gas engine string trimmers and leaf blowers. Made of high carbon steel, hardened and nickel plated.

**Sale \$229.99**

**Regular \$249.99**

Item # 49600

## Ratchet Scrench (19mm x 13mm)

This is the Rolls Royce of chainsaw wrenches. Unlike common screnches, this tool has a reversible ratchet end, which really helps out in tight spots, such as chainsaws with full wrap handlebars. Screnches are primarily used for adjusting the chain tension on a chainsaw, removing spark plugs, accessing air filters, starters, etc. on certain saws. A versatile little tool that does the job of 2 wrenches and a screwdriver. Not restricted to chainsaws. It also works on small gas engine string trimmers and leaf blowers. Made of high carbon steel, hardened and nickel plated.

**LM M10 EFI** Max. single pass: up to 10" x 10"  
Max. double pass: up to 10" x 20"

Lucas Mill portable sawmills have been a big hit here in North America since their introduction back in 1996. Today there are well over 15,000 Lucas Sawmills operating worldwide, with a great many of those still cutting logs today. These portable sawmills are designed for production milling of saw logs, both large and small, on a commercial scale. They are available in both circular swing blade or slabber versions. The swing blade models break down logs into accurate lumber, which is far quicker and easier than comparably priced bandsaw sawmills. They are also much cheaper to operate, as the carbide tipped saw blades don't require the constant maintenance that bandsaw blades need. The Lucas Mill slabbers are designed to cut large logs into slabs and tabletops for specialty woodworking projects.

Bailey's also has a large selection of Lucas Mill parts and accessories.

Lucas Mill dedicated slabbing sawmills (also known as dedicated slabbers) are specifically designed for cutting large wood slabs. Dedicated slabbers use the patented Lucas Mill frame system to make setup and operation productive and simple. These machines create large, natural edge slabs from logs, stumps, burls, and root balls with accurate results. Dedicated slabbers use specially designed ripping chainsaw chain to cut smoothly and accurately through the largest and toughest of woods.

- **Model DSM 23** Dedicated Slabber specifically designed for cutting large timber slabs.
